PREPARE WORKSITE SET UP FOR INSTALLING, WIRING AND CONNECTING ELECTRICAL EQUIPMENT AND CONTROL SYSTEMS

PRACTICAL MODULE

Module #	671101000-PM-03
NQF Level	level 3,
Notional hours	300
Credit(s)	Cr 30
Occupation or Specialisation	671101000: Occupational Certificate: Electrician
Associated Occupation	671101: Electrician

INTRODUCTION

Congratulations on completing the program. As part of your training you are required to keep a logbook of all practical on the job training and exposure you receive during the learning process.

You will now be assigned to a mentor who will oversee your off-site training, usually referred to as on-the-job training.

The mentor will assist and advise you on the practical aspects of the job, how to fit into the company, what is expected of you as an employee and as a future supervisor.

Responsibilities of the learner include:

- One hundred percent commitment to the learning process. Learners are encouraged to study any additional source of information relevant to this learning process.
- Doing all assignments contained in this workbook as well any tasks and assignments received from your mentor or supervisor to whom you have been assigned.
- Although the mentor is responsible to sign off all sections completed, it is the learner's responsibility to ensure that all paperwork is completed and handed in for filing on his/her record of learning. It should be clearly stated to learners that a 100% complete record of learning, as prescribed by this logbook, is **their sole responsibility.** Any document missing from the record may result in your not being declared competent.
- Discuss any problems that you may have with your mentor.

Instructions to the Assessor

Congratulations on your appointment as a assessor to the learner. This is a very responsible assignment because you have been tasked with the responsibility of rounding off the learner's practical exposure.

You must ensure that you are familiar with all aspects of the work covered in this logbook because you must keep a daily account of the learner's performance.

You are also required to report to the learnership coordinator skills development facilitator, or as agreed between yourself, the coordinator and the learner regarding the learner's progress. Your responsibilities as mentor are as follows:

- Study the logbook and acquaint yourself with its content and format
- Remember this logbook is the learner's full record of learning and workplace exposure. All activities which the learner participates in must be recorded, and all documents produced in relation to this learnership must form part of the record of learning
- Get all the learners together and explain its purpose to them and also what is required of them
- Remember the mentor is the creator of learning and exposure opportunities. You should therefore not confine the learner's exposure to this logbook alone
- Continuously guide them in doing the assignments and arranging the planned exposure with the relevant departments
- File all duplicate records of learning on a file for each learner
- Send all original records to the training provider at the end of end of each month. The Seta also requires that copies be held at the companies
- This logbook need not be followed chronologically, but please note that the learner is required to work through the entire logbook by the end of the learning period

Provider Accreditation Requirements for the Module

Physical Requirements:

Demonstrate access to:

Electrical environment

categories of tools, equipment and processes in order for learners to be able to plan worksite set up for installing, wiring and connecting electrical equipment and control systems

Human Resource Requirements:

Trainers should have a minimum requirement to include a level 4 qualification and a level 5 facilitator qualification that includes competencies related to installing, testing, connecting, commissioning, maintaining and altering/repairing electrical equipment, wiring and control systems or equivalent or at least 5 years relevant experience working within en electrical-related industry with a recognized Trade Certificate.

Trainer/learner ratio 1 to 12

Workshop coach/learner ratio 1 to 4

Legal Requirements:

Accredited with National Artisan Moderation Body (NAMB)/Assessment Quality Partner (AQP)

Compliant with Safety, Health, Environmental, Risk and Quality (SHERQ) requirements

Compliant with Compensation for Occupational Injuries and Diseases Act (COIDA) requirements

Critical Practical Activities to be Assessed Externally for the Module

None

Exemptions

None

Purpose of the Practical Skill Module 3

The focus of the learning in this module is on providing the learner an opportunity to: Practice electrical skills within a simulated work environment. The learners will be practicing skills related to preparing worksite set up for installation, wiring and connection of electrical equipment and control systems

The learner will be required to:

PM-03-PS01: Procure resources

PM-03-PS02: Prepare and transport resources

PM-03-PS03: Prepare work site, equipment, tools, consumables and materials

INSTRUCTIONS

You are required to perform the task below and Your Supervisor/facilitator/mentor will assess you based on the below observation checklist attached:

1. Determine and list the Human resources to meet the specific needs of the activity and are fit for purpose
2. Determine and procure Tools and testing instruments required to meet the specific needs of the activity and are fit for purpose
3. Procure Equipment to meet the specific needs of the activity
4. Procure Material requirements to meet the specific needs of the activity and are fit for purpose
5. Procure Consumable requirements to meet the specific needs of the activity and are fit for purpose

Attach evidence of receipts, invoices etc.

meet the specific needs of the activity			
4. Procure Material requirements to meet the specific needs of the activity and are fit for purpose			
5. Procure Consumable requirements to meet the specific needs of the activity and are fit for purpose			
Learner Attached evidence of procurements receipts, invoices etc.			

GENERAL COMMENTS OF OBSERVER:

Date.....	Time started.....	Time completed.....
ASSESSOR NAME	**ASSESSOR SIGNATURE**	**LEARNER (SIGNATURE)** .....

INSTRUCTIONS

You are required to perform the task below and Your Supervisor/facilitator/mentor will assess you based on the below observation checklist attached:

1. Load and off load resources
2. Stack and secure tools, material and equipment
3. Store tools, material and equipment on site

SECTION C-Guidelines for Practical Skills

PM-01-PS03: Select, use and care for electrical measuring instruments

Scope of Practical Skill

Given work instructions, checklists, work area, activity documents, safety and quality principles and standard operating procedures, the learner should be able to:

PA0301 Undertake safety checks

PA0302 Source temporary electrical supplies for use

PA0303 Position equipment for installation

Applied Knowledge

AK0301 Lock out procedures

AK0302 Relevant subsections of SANS 10142-1

AK0303 Installation requirements

AK0304 Site specific rules and regulations

OBSERVATION EVALUATION

NAME: ..... **SURNAME:** ..... **COMPANY**..... **ID**.....	**EVALUATION CHECKLIST** DATE: TIME:

EVALUATION CRITERIONS	**MET REQUIREMENTS**	**DID NOT MEET REQUIREMENTS**	**COMMENTS OR ACTION REQUIRED**
ABILITY OF THE LEARNER TO:			
1. Complete a safety report that contain all relevant areas of the installation			
2. Correctly position Equipment and components according to the installation requirements			
3. Correctly apply the relevant subsections of SANS 10142-1
