About the Formative Assessment	
Purpose	The purpose of this Formative Assessment is to evaluate learners understanding on the specific outcomes and/or assessment

Z.

	criteria and prepare the learner for the summative assessment. This will show that the learner is ready to be assessed.
Context	This assessment represents the Formative Assessment component and should be completed in the classroom/training room.
Resources	The following are resources needed for this assessment: 1. Learner Guide; and 2. Assessment Preparation.
Instructions to Facilitators	Facilitators will be required to: • Explain the completion of the Formative Assessment to each learner; and • Interview the learner on similar questions, should he/she not be able to write.
Instructions to Learners	Learners will be required to: • Complete the Formative Assessment as per the instructions; • Ensure that all questions are completed; • Ensure that the completion of the workbook is their own work; • Ensure that all annexure are attached to the workbook and clearly referred to;
Assessment Time	Learners are required to complete this assessment within the allocated time frame/hours.
Total Mark	This formative assessment carries a total mark of _ **points.** In order to meet the pass mark, learners are required to achieve a minimum of **80%** of the total marks.

Resources required for this assessment

Guidelines to the learner:

Learners Name: Ziphozinhle Mqopi

Learner's signature: _____ Date: _____

Facilitator Name: Balennah Yabadi

Facilitator's signature: _____ Date: _____

ASSESSMENT APPEALS PROCEDURE

1. A learner has the right to appeal under the following circumstances
   - If the laid down assessment procedures were not followed during assessments
   - If not all evidence available was taken into account during the assessment

7

- The assessor was not a subject matter expert or did not have a subject matter expert during the assessment process
- The assessor did not assess according to the performance criteria and range statement stipulated in the unit standard
- Not all the range items were available for assessment

2. A learner bringing an appeal against a decision of the assessment will lodge such an appeal with the assessor and the internal moderator within 2 days of the assessment feedback session.

3. A learner bringing an appeal should complete the "Learner's Notice of Assessment Appeal "form before the Appeal Hearing. The form should be handed to the internal moderator or a representative of the SETA.

4. Should the internal moderator re-affirm the assessor' decision, the learner may appeal to the external verifier within 2 days after the initial moderator's feedback session. The external verifier's decision will be final. Should the external verifier re-affirm the assessors' decision, the cost for re-evaluation will be upon the learner. Should the verifier's decision differ from the assessor's decision, the cost for re-evaluation will be borne by the assessor.

ASSESSMENT APPEAL APPLICATION FORM

LEARNER'S NOTICE OF ASSESSMENT APPEAL

TO: The Internal Moderator

Z

A meeting with the internal moderator is hereby requested to discuss the outcome of my assessment.

Internal moderator name _____

Date of submission: _____

Name of employee assessed: _____

Name of Assessor: _____

Date of feedback session: _____

Grounds for Appeal

No	Tick the applicable ground(s) for appeal	Tick
1	The assessment did not follow the laid down procedure	
2	Not all evidence available was taken into account during the assessment	
3	The assessor was not a subject matter expert nor was a subject matter expert present during the assessment process	
4	The assessment was not according to the performance criteria and the range statement stipulated in the unit standard	
5	Not all the range items were available for the assessment

PRE-ASSESSMENT MEETING CHECKLIST

Points Assessor must cover in the initial meeting with the learner - Please tick

Item	Points to be covered	Tick
1	Welcome the candidate **and put them at ease**	✓
2	**Explain the purpose of the meeting** (why you are there and how long the meeting will take)	✓
3	**Explain the** ▪ NQF ▪ Credits ▪ Certification process ▪ Learning pathways	✓
4	**Explain** ▪ Who is involved in the assessment and their role (learners, coach, assessors, managers, moderators) ▪ Principles of assessment (fairness, confidentiality, validity, sufficiency)	✓
5	**Explain the assessment process?** ▪ Check learner readiness for assessment (logbook / self assessment) ▪ Assessment contract to be completed ▪ Preparation of learner (this meeting) ▪ The assessment (observation and knowledge questionnaire) ▪ Judgement of the evidence ▪ Outcome of assessment (competent, not yet competent, need further evidence)	✓
6	**Give Learner copies of the following documentation and explain each document** ▪ The Assessment Guide which includes o The relevant unit standard (s) o Assessment contract o Assessment plan o Observation checklist o Knowledge checklist	✓
7	**Discuss the assessment plan** (complete the assessment plan document) ▪ Allow the learner to participate in the decisions made ▪ Agree on dates, time and venue for the assessment and feedback ▪ Agree on evidence the learner can submit ▪ Agree and explain the assessment methods ▪ Identify and discuss special assessment needs of the candidate ▪ Identify and eliminate unfair barriers (language, disability etc) ▪ Discuss and agree on witness requirements	✓
8	**Tell the candidate his/her rights and responsibilities, the assessment procedures and policies** ▪ How many times they may be assessed ▪ Appeals process / procedure ▪ Reassessment policy	✓
9	**Ensure the assessment environment is appropriate** or make special arrangements	✓
10	Discuss moderation	✓
11	Allow the learner opportunity to clarify any items discussed	✓

LEARNING UNIT 1:

KM-02-KT01: Hand tools and power tools (50%)

Learning Outcome 1:	KT0101 Types, uses and care of hand tools
Learning Outcome 2:	KT0102 Types, uses and care of portable power tools
Learning Outcome 3:	KT0103 Types, uses and care of fixed power tools

Task	Questions Description	Marks
1.	Identify portable power tools and describe their uses Identify fixed power tools and describe their uses	10

Portable Power Tools include

- Drills / Drivers : It is used for drilling holes for cables Driving screws for fixing outlets, switches.

- Impact Drivers : It is used for driving large screws, bolts into tough materials. Impact Drivers have a high torque therefore ensuring less strain on the wrist.

- Circular ~~Saw~~ Saws : It is used for cutting cables, conduit, cutting wood / making notches for cable routing

- ~~W~~

- Cordless Grinders : It is used for grinding and cutting metal conduit. ~~PPE is~~

Fixed Power Tools include

- Bench grinder : It is used for sharpening drill bits, grinding metal, smoothing welds

- Drill Press : Used for drill presses for precision drilling in various materials like metal, wood or plastic.
- ~~Cable Pulling Winch : Pulling cables. These compact This~~
- Table saw : Used for cutting wood accurately
- Wiring conduit bender : Bends pipes for wiring routes
- Cable pulier : Pulls cables through conduits
- Screw machine : Cuts, threads screws
- Wiring harness tester : It is used for wiring setups

LEARNING UNIT 2:

KM-02-KT02: Measuring and testing instruments (50%)

Learning Outcome 1:	KT0201 Portable electrical measuring instruments
Learning Outcome 2:	KT0202 Types of electrical measuring and testing instruments
Learning Outcome 3:	KT0203 Safe use of measuring and testing instruments
Learning Outcome 4:	KT0204 Construction and operating principles of measuring and testing instruments
Learning Outcome 5:	KT0205 Methods of connecting measuring and testing instruments in circuits
Learning Outcome 6:	KT0206 Applications and methods of using electrical measuring and testing instruments
Learning Outcome 7:	KT0207 Care and maintenance of single and three phase measuring and testing instruments
Learning Outcome 8:	KT0208 Instrument transformers
Learning Outcome 9:	KT0209 Types and functions of panel mounted electrical measuring and testing instruments
Learning Outcome 10:	KT0210 Safe use of panel mounted measuring and test instruments
Learning Outcome 11:	KT0211 Protection of measuring instruments when connected in a circuit.

Task	Questions Description	Marks
2	a) Identify different types of electrical measuring instruments including fixed and portable and state the purpose. b) Explain by means of circuit diagrams how a ammeter, voltmeter is directly connected and	5

Z

		indirectly connected by using instrument transformers.	

2a)

- Multimeter : Use for troubleshooting electrical circuits, electronics repair It can measure voltage, current, resistance and sometimes diode testing

- Clamp Meter : Measures AC current without breaking the circuit by surrounding a conductor to measure the magnetic field produced by the current. It is useful for checking motor loads and diagnosing wiring problems without disconnecting wires.

- Insulation Tester : Measures the insulation resistance of cables, motor, transformers and other electrical equipment to ensure safety and compliance with standards.

b)

- Earth Resistance Tester : Measures the resistance of the Earth ground connection.

Task	Questions Description	Marks
3	Explain the function of the wattmeter (electrodynamometer type), kilowatt-hour meter, frequency meter, power factor meter and maximum demand meter	5

1. Wattmeter (electrodynamometer type)
The electrodynamometer type wattmeter is an essential instrument for measuring electrical power in both AC and DC circuits. It operates on the principle of dynamometer where a mechanical force

2. Kilowatt-hour meter measures electrical energy consumption. It operates by measuring the flow of electricity through a circuit, which is converted into kilowatt-hours

3. Frequency meter measure the frequency of alternating current signal, which is the number of cycles a waveform completes in one second

4. Power factor meter shows efficiently electricity is being used. It measures the ratio of real power to apparent power

5. Maximum demand meter tracks the highest power usage (demand) over a period. It helps manage and limit peak electricity use. It is also useful for managing industrial or commercial power usage

5

SELF-ASSESSMENT

The learner must make use of the following self-evaluation checklist to rate himself against the learning outcomes of this particular training module in establishing the level of mastery of the information.

1. Not able to comply
2. Reasonable compliance (Not acceptable for final evaluation)
3. Able to comply fully

OUTCOMES		1	2	3
1	Portable electrical measuring instrument			✓
2	Safe use of measuring and testing instrument			✓
3	Instrument Transformers			✓
4	Care and Maintance of single and 3-Phase			✓
	measuring and testing instruments			✓

Application for Assessment

First Attempt ☐ Second Attempt ☐ Third Attempt☐ RPL ☐

Observer/Witness required: Yes/No

Name: _____

Contact Number: _____

Interpreter required: Yes/No

Name: _____

Contact Number: _____

Was Employer informed of request for Assessment: Yes/No

Type of Assessment: Theoretical

Practical

Recommendation for Assessment

The applicant has completed his/her training, has prepared for the assessment and is now ready to be assessed.

The ETDP Practitioner believe that the candidate is ready for the assessment because he has completed the relevant unit standard.

Z

Notification of Assessment

Assessment will take place as follows:

	Theory	**Practical**
Date		
Time	9H00	9H00
Venue	Employer premises	Employer premises
Instruments	Written assignment	Practical Assessment

Action required from candidate:

Candidate need to prepare him/herself to either write the Questionnaire or conduct Practical Assessment in order to achieve competency towards the relevant unit standard.

ETDP PRACTITIONER

Assessment Planning

	Theory	**Practical**
Date of assessment:		
When would be the best time for the Assessment?	9H00	9H00

Have you received an application to assess the candidate? Yes
What assessment methods do you consider using? (observation, assignment, presentation, etc.) Explain method. 1. Written Assignment : Printed Questionnaire 2. Observation : As per Practical Assessment Guide 3. Interview : List of Questions as per Practical Assessment Guide after Practical Observation
What resources would you require to conduct the assessment? 1. Assessor toolkit 2. Theoretical assignment 3. Practical assessment 4. Learner toolkit
How would you sequence your activities? Explain 1. Record preparation process 2. Meet with group/candidate and explain assessment procedure – how you are going to conduct the assessment 3. Learner will write summative assessments
